REASONS FOR ALLOWANCE

1. The drawings were received on September 19, 2005. These drawings are acceptable.

2. The following is an examiner's statement of reasons for allowance: prior art of record does not teach or suggests in combination a frequency tracking loop or method comprised of a variable bandwidth filter having a wide bandwidth on receiving a burst of known data having a first length and having a narrow bandwidth on receiving a burst of known data having a second length wherein the second length is shorter than the first length.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kirkpatrick (US Patent No. 6,476,681 B1) discloses adjusting the bandwidth of a filter from wideband to narrowband based on a bandwidth control or lock indicator signal. It does not teach varying based on the length of known data as recited in the respective independent claims.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Betsy L. Deppe whose telephone number is (571) 272-3054. The examiner can normally be reached on Monday, Tuesday and Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on (571) 272 - 2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
